Reduce Fraud Losses

Discover fraudulent attempts in near real-time and cut financial losses from fraud significantly.

Detect First-Time Fraudsters

Identify new fraudsters easily by detecting identical voices across multiple customer accounts.

**Solving Everyday Challenges
Through Voice**

phonexia.com

Designed for subscription fraud mitigation in telco, insurance, and retail finance.

The screenshot shows the ORBIS FRAUD DETECT interface. At the top, it says 'ORBIS FRAUD DETECT' and 'Telco Fraud / Hits'. The user is 'Tom Martin'. A 'Hit resolution' window is open for a 'Fraud Attempt' conversation. It shows a waveform with a time axis from 0 to 6:00. A speaker is identified as 'Fraudster 24' with a phone number '+420 719 610 826'. Another speaker is listed as '+420 777 777 777'. Below the waveform, there are controls for playback and search. A table titled 'Referential audio for: Fraudster 24' shows a list of audio segments with columns for Source, Participants / Entities, Net, Dur., IFTTime, and Action. The table contains one entry for 'Fraudster 24' with phone number '+420 777 777 777' and a duration of 5:03. At the bottom, there is a question 'Is this evidence?' with buttons for 'No', 'Cannot decide', and 'Yes'.

Supreme Voice Biometrics

Phonexia Orbis Fraud Detect is powered by Phonexia's extremely accurate voice biometrics that can identify a person's voice with over 98% accuracy regardless of language, accent, and words spoken.

Automatic Speaker Clustering

This ground-breaking functionality enables your fraud team to group all callers in your contact center by voice, instantly highlighting the fraudulent activities of known and unknown fraudsters.

Easy Deployment

Phonexia Orbis Fraud Detect is an easy-to-install solution that can be used out of the box. Whether you want to deploy it on your premises or access it via a private cloud, it can be done so seamlessly.
